We are the Winx!

Bloom, Stella, Flora, Musa, Tecna—and you! Close your eyes and open your heart. Believe in yourself. That's how it starts.

The Winx Club is an awesome group of friends. We're all fairies at the Alfea School for Fairies in Magix, a faraway world where magic really exists! In school we learn to use our magical powers. Sometimes that isn't easy with the witches from the Cloud Tower School for Witches trying to trick us. You never know when they're going to turn up. There are also the boys from the Red Fountain School for Specialists. They are way cute!

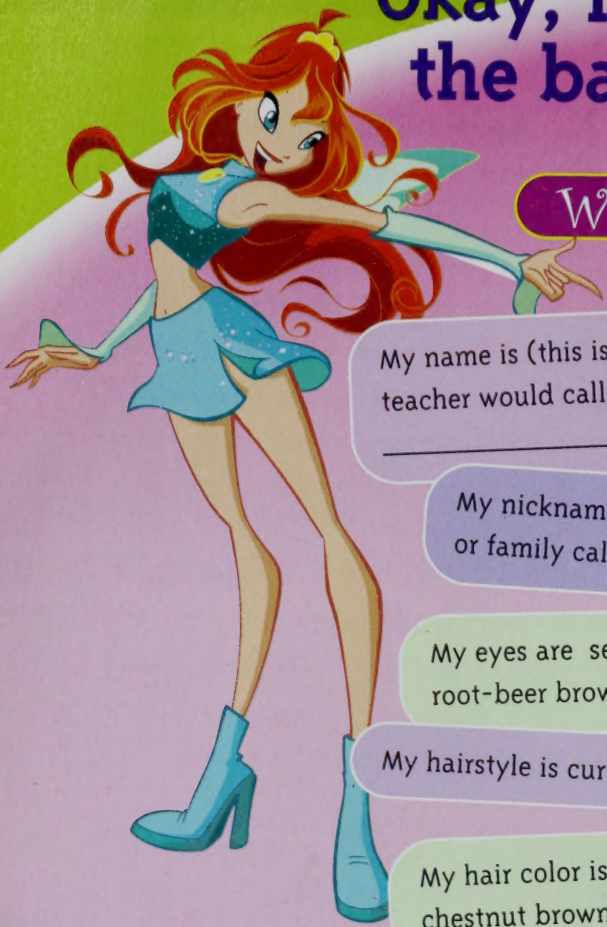
My name's Bloom. I'm from Earth. Until I met my best friend, Stella, I didn't know I could do magic. I didn't even know I was a fairy! It was hard leaving my parents behind—it's not easy making a cell phone call across the galaxy—but my new friends are really cool about making me feel at home here.

When I first got to Alfea I didn't know where my magical powers came from. I didn't know who I was. Do you ever feel like that? So I sat down and wrote all the important things I knew about myself—all about my life, my world, and my friends. Now you can do the same thing in this book. It's a book about you, written by you—with a little help from all of us in the Winx Club.

You've Got Winx,

Bloom **Stella** **Flora** **Musa** **Tecna**

Okay, let's start with the basics.



Who am I?

_____. Or are you an only child—like me?

Here's a place to really show who you are—with a picture!

I've always been really shy about getting my picture taken. My friend Stella gave me some tips on looking good. Stella loves getting her picture taken.

The most important thing should be the easiest—breathe! Don't get nervous and hold your breath.

Stand up straight just like your mom always tells you—it makes you look confident.

Just before the picture, give your cheeks a little pinch, and bite and lick your lips. It's like putting on just a little blush and lipstick.

Say A-E-I-O-U before the picture's taken. That relaxes your face and makes for a prettier smile.

Most important of all—a smile isn't just about your mouth. Make sure yours comes from the heart!

Hi! I'm Stella, Princess of Solaria and Bloom's best friend! I get my power from the sun and moon. One thing I love to do with my friends is shop. They're lucky to have me. I have a great eye for fashion. If something doesn't look good on someone, I tell her!

I'm up on all the latest trends in fashion.

That takes a lot of time. Sometimes I don't have too much time left over for homework! But what would my friends do without me? They might all be total fashion victims.

The most important thing to remember in fashion is that you wear your clothes; your clothes don't wear you!

One look people have been wearing that I think is really cute is _____.

One look people have been wearing that I think is really NOT cute is _____.

One cool style that I made up is _____.

If you chose mostly A's, you're always up for adventure. You don't follow the trends, you start them. Your style is funky!

If you chose mostly B's, you're a go-getter on the field and off. You might beat the boys in sports, but you're all girl. Your style is sporty!

If you chose mostly C's, you're ready to take on the world. Maybe you're already class president. You've got serious dreams, but you know how to have fun, too. Your style is classy!

If you chose mostly D's, you're like a princess in a fairy tale. You're always ready to go to the ball—but you don't need a prince to feel good about yourself. You drive your own pumpkin coach!

Hi, everybody!

I'm Musa from The Harmonic Nebula. I'm the Fairy of Music and get my power from all types of music. When I'm listening to my favorite song, it's like being carried away to another world. Unfortunately, I get carried away to other worlds a lot—like when I'm supposed to be listening in class. Sometimes my teachers don't appreciate my day-dreaming. But I can't help it!

I like to dance and sing and play musical instruments. That's why I like to stay in shape. I love to eat healthy foods and do yoga. *Ohhhhhmmmm.*

What kind of music do you like?

My favorite song is _____.

My favorite band is _____.

My favorite singer is _____.

My dream concert would be _____.

___ B. My ripped jeans and concert T-shirt—party on

___ C. An evening gown and long velvet gloves

___ D. A beaded dress with a feather in my hair

If you chose mostly A's, you're country music. No matter how many times you get your heart broken, you're always ready to get back in the saddle again. And remember, nobody tells a story like a country singer.

If you chose mostly B's, rock on because you're rock and roll! Nobody tells you what to do. You're the original rebel. But that doesn't stop you from being a good friend.

If you chose mostly C's, you're classical music—intelligent, complex, and emotional. You're still going strong and you never go out of style.

If you chose mostly D's, you're a jazzy, hep cat. Jazz is all about improvisation—that means you follow your own personal style and make it up as you go along.

Hi, I'm Flora.

I'm the Fairy of Nature. I'm also Bloom's roommate. I come from The Fifth Moon of Marigold and get my power from flowers and plants. I love to talk to flowers, especially when they answer back.

I also like school. My favorite subjects are English, History, and Magical Forestry. My friends are always telling me to speak up more in class, but I'm worried I don't have the right answer. I guess I shouldn't be so afraid to be wrong.

My favorite subject in school is _____.

My favorite book is _____.

My favorite teacher is _____.

Flora's Flower Language

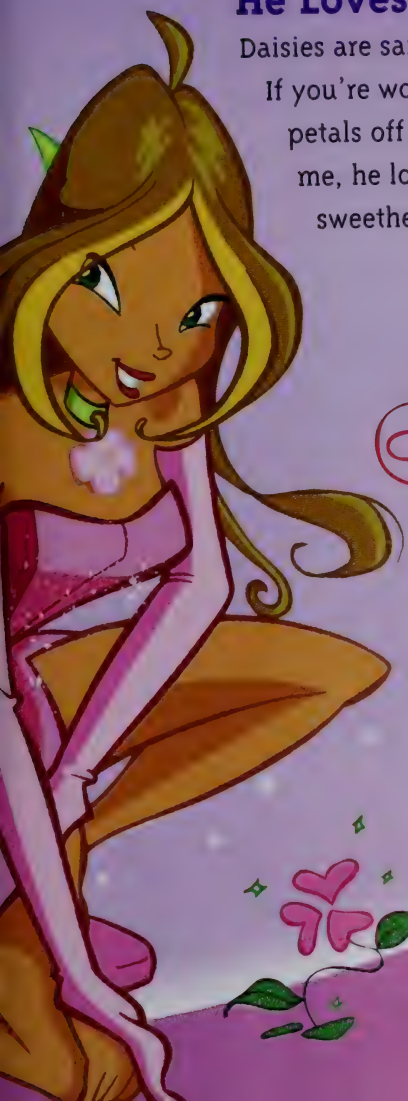
In Victorian times (that's the nineteenth century, when Queen Victoria ruled Great Britain on Earth) people used flowers to send messages. Different flowers meant different things. My friends and I like to send flower messages to one another, too. We'll let you in on the secret code:

Carnation (solid color) – Yes
Carnation (striped) – No
Cherry Blossom – Good luck on your test
Daisy – I'll never tell

Dead Leaves – I'm feeling sad
Forsythia – I can't wait
Purple Hyacinth – Please forgive me
Orange Lily – I'm mad at you
Mistletoe – Give me a kiss
Olive Branch – Let's make up
Yellow Rose – Let's be friends
Sweet Pea – Good-bye
Venus Flytrap – Gotcha
Witch Hazel – I've cast a spell
Wolfsbane – I've got a knight in shining armor

He Loves Me, He Loves Me Not

Daisies are said to have magical powers when it comes to love. If you're wondering if your true love feels the same, tear the petals off of a daisy one by one as you repeat, "He loves me, he loves me not," until all of the petals are gone. Your sweetheart's feelings will be revealed with the last petal.



Greetings. I am Tecna.

I am from The Third Vector of the Binary Galaxy. I am the Fairy of Technology and I draw my power from all that is high-tech—cell phones, computers, iPods, CD players, televisions, and video games.

Machines are logical. My friends are not. Musa is my roommate. Sometimes she thinks I am a bit too logical. Sometimes I think she's a bit too emotional, especially when she loses her temper and punches her pillow until feathers fly everywhere. This is highly illogical, but I've learned a girl doesn't have to be just like me to be my friend.

In school I like Science and Math, though the technology here is quite primitive compared to my own wired realm. In my spare time I work on inventions of my own. Last week I developed an electronic closet organizer. Now it only takes Stella three hours to pick out her clothes in the morning.

If I invented something it would be _____
_____.

In the future I see myself_____
_____.

My favorite video game is_____.

My favorite website is _____.

Computer Savvy

If you remain in front of a computer for too long in the same exact position, you can start to have trouble with your joints and eyes. In other words, be careful and pay attention to your posture when you're in front of your computer by doing the following from time to time:

Open and close your eyes to moisturize them, and then, to relax them, turn your focus to faraway objects.

Change the position of your legs.

Sit up straight and lean back slightly.

Don't lean on your pressure points and avoid putting your forearms on the edges of the desk.

Don't press down on the keyboard or the mouse too hard.

Words aren't always enough when you are e-mailing and texting someone. Sometimes you need to see a person's expression. That's when you need to rely on emoticons—simple symbols that show how you are feeling. These are a few of the funniest ones:

MOODS

:-) I am happy.
:-D I can't stop laughing!
:-(I am sad, anxious, or depressed.
:-o That's amazing!
:-O Wow, I am really surprised!
":'-(I am crying.
":-[I am angry.
:- No comment.
:-~) I have a cold.

PHYSICAL DESCRIPTIONS

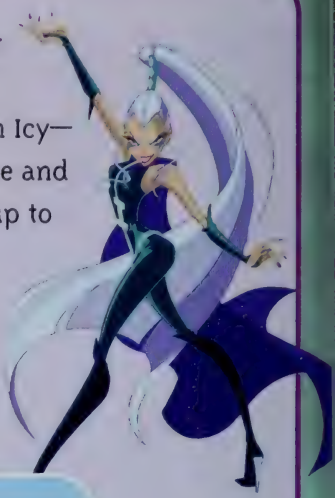
:-(=) I have big teeth.
:-[) I have a mustache.
:-[] I am wearing lipstick.
:-# I have braces.
"8:-) I have curly hair.
P.:-) I have wavy hair.
=:-) I have straight hair.
(:+) I have a big nose.

ACTIONS

;-) A wink
:-pPpP A raspberry

That's enough,

computer chick! Nobody wants to hear about fairies and computers. Not when witches are on the scene! I'm Icy—that's Heart of Ice to you. I draw my power from ice and I can freeze you solid in seconds. Nobody stands up to me, so you better do what I say.



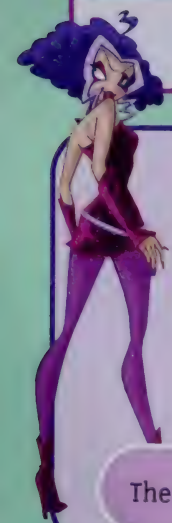
I go to the Cloud Tower School for Witches. Stormy, Darcy, and I are the best witches there.

Do you have what it takes to be a witch?

One time I got really mad was _____.

I thought my teacher was completely unfair when_____

_____.



They call me Stormy

because I'm Queen of Storms. That's where I draw my power. You'd better not make me angry or I just might call up a hurricane or a tornado—and destroy your hairstyle!

My favorite thing to do at night is_____.

The latest I've ever stayed up is_____.

This is Darcy

I'm the Lady of Darkness. I love the night. Nobody can see what I'm up to when it's dark—not even those Winx Club fairies.

Darcy's Creature of the Night Roll Call

"Witch" creature of the night are you?

1. Where do you like to hang out?

___ A. My local blood bank

___ B. In an open field where I can run around

___ C. Creepy old mansions

___ D. At a cool club with my friends from Cloud Tower

2. What's your idea of a good time?

___ A. Going out for a drink of blood

___ B. Howling at the moon with my pack

___ C. A séance, where I'm the guest of honor

___ D. Tricking the Winx Club

3. Where do you sleep?

___ A. In my coffin—it's velvet lined

___ B. In my kennel—it's where my water dish is

___ C. In my tomb—but I don't rest peacefully

___ D. In my four-poster bed in my dorm room

4. What's your pet peeve?

___ A. Garlic—especially in necklaces

___ B. Fleas

___ C. Exorcists

___ D. Fairies—especially the Winx Club

5. What do you think about the Winx Club?

___ A. They have very tasty—I mean beautiful—necks.

___ B. Do you think they would play fetch with me?

___ C. Are they dead yet?

___ D. Their days are numbered!

If you chose mostly A's, you're a vampire. Some people say you're a pain in the neck but we think that black cape and pale skin of yours is just dreamy. Let's go out for a bite.

If you chose mostly B's, you're a werewolf. Things get pretty hairy when there's a full moon but everybody needs to howl sometimes. Fetch this!

If you chose mostly C's, you're a ghost. You sure know how to make an entrance, slipping through walls and levitating off the floor. When you say BOO you mean it!

If you chose mostly D's, you're a witch. Aren't you lucky? Want to help us in our next scheme against the Winx?

Aren't you glad we took over this book? And there's nothing those Winx can do about it. Nothing at . . .

We are the Winx!

Take that, Icy, Stormy, and Darcy! We think we hear the Witches of Cloud Tower calling. Sounds like someone's in trouble. Three someones!

Those witches never learn. When we stick together nobody can beat us.

My best friends are_____.

One cool thing my friends and I did together was _____.

I laugh every time I think about the time my friends and I _____.

Stella here! I hope those Witches aren't in too much trouble. Maybe they'll get kitchen duty. That's what I got the time I clogged up all the sinks with my super-rich hair conditioner.

But kitchen duty ended up being really fun. I experimented with all these beauty treatments. They're very secret, but since you're in the club I can share them with you. Just ask your mom first before you go through the refrigerator!

Stella's Stellar Spa Specials

Super Sugar Scrub

You probably know how good sugar tastes, but it's good for washing your face, too! Just add a teaspoon to soap and water, and massage it gently in circles. Rinse it off with lemon juice and water (equal parts of each). Splash your face with cool water and pat dry. It's sweeeeet!

Salad for Your Face

Okay, this one is totally awesome. It'll leave your face feeling fresh and cool as a cucumber. Just take half a small tomato and mix it with one quarter cup chopped cucumber (leave the peels on!) and two tablespoons of chopped fresh parsley. Add a teaspoon of fresh lemon juice; put the whole thing in a blender and puree!

Leave it on your face for ten minutes. Then rinse it off and voilá! You've got a brand-new face!

Summer Spectacular Mask

You better lie down for this one—because it might slip off your face. Mash a quarter cup of watermelon (after you've taken it off the rind) in a ceramic bowl. Then put it right on your face. Let it sit for 20 minutes (have a magazine handy—or your cell phone so you don't get bored). Wash it off with cool water and pat dry. The A, B, and C vitamins will make your skin glow!

Spritzer

This is great for anytime you need a pick-me-up. Take a cup of puréed fresh pineapple and mix it with two cups of seltzer water. Splash it on in the shower and rinse well with warm water. Pat dry with a fluffy towel.

Perfume

A drop under the ears, one on the wrists, and one on the backs of the knees—these are the best spots to leave a trace of perfume.

Never mix two strong scents.

Spray a room with a cloud of perfume!

Now let's move on to hair,

shall we? Hair is so very important! You can get your kicks any way you want—with shocking and trendy haircuts or colors and highlights—but the most important thing is that your hair is healthy and shiny. Here are a few secrets on how to take care of your hair.

FAIRY-TALE HAIR

Do not use very hot water—it tends to dry hair.

When you shampoo, lather well starting at the roots—that's where the oil accumulates—and then massage it in.

Finally, when rinsing, do not leave any shampoo in your hair, and do not rub it.

Dry your hair from the roots to the tips to avoid tangles, damage, and split ends.

If your hair is really long like mine, first untangle the ends and comb through each knot. Then comb all the way through.

And if you want more body and volume, flip your head down to dry it! Easy, right?

Now whatever you do, don't forget your hands! They're important in your relationships with others. Therefore, don't hide them in your pockets because they're unkempt, but take care of them, and show them off like I do! I'll let you in on my own simple magic formula.

FAIRY-TALE HANDS

Fill a small bowl with hot water, soap, a bit of lemon, and a drop of olive oil.

Soak your hands for a few minutes.

Dry them well.

Polish your nails using a buffer.

File your nails from the outside to the inside.

Finally, use a cuticle stick to push your cuticles back.

Hey, it's Bloom again. Aren't Stella's beauty tricks awesome? Stella's taught me all about beauty and fashion. She says the most important thing is to be yourself. Don't just dress like other people.

One way you can express yourself is through color. If you're feeling sunny, try wearing yellow. If you're angry, wear red. Feeling blue? Why not wear it? Sometimes I like to wear lots of colors. I'm not quite sure who I am yet!

What's your favorite color? That sounds like a simple question. But your favorite color can say a lot about you.

Red – You're a natural leader. You have courage and self-confidence. Musa loves red.

Orange – You're very outgoing and like to make friends. You're very good at cheering people up. I guess that's why it's Stella's favorite color.

Yellow – You're smart and creative, and have a good sense of humor. There's a lot of things that interest you—you're curious. If people don't understand something, you're the person to go to.

Green – This is Flora's favorite color. If you like green, you love nature. You're kind and sensitive, and like to dream.

Blue – If you like blue, you're a peacemaker. You're a good communicator and quite a storyteller.

Purple – If you like purple, you like thinking up new ideas and making the world around you better. You're connected to the whole universe. This is Tecna's favorite color.

Hi, Musa again. I see Bloom is having trouble figuring out who she is. I suggest she look outside herself. What month you were born in determines what sign you were born under and can tell you so much about who you are.

The signs of the zodiac belong to four elements—each having its own characteristics.

Aries the Ram

(March 21-April 20) Aries are born leaders. They want to get things done. But watch out that you don't ram your ideas at other people and wind up butting heads.

Taurus the Bull

(April 21-May 20) Taurians like to enjoy life. They love good food, nice clothes, and having fun. They're loyal and dependable. But like the bull, they can also be stubborn.

Gemini the Twins

(May 21-June 20) Gemini love to talk—they tell jokes, tell stories, and tell you what they think, even if you didn't ask them. You'll never be bored with one around. Sometimes they change their mind—almost like there's two of them instead of one!

Cancer the Crab

(June 21-July 20) Cancers like to take care of everyone. They're great babysitters. They'd rather curl up at home than go to a party—as long as their friends and family are with them. Sometimes Cancers can be shy—watch them retreat into that crab shell!

Leo the Lion

(July 21-August 20) Leos love to be the center of attention. No matter what, they always make an impression. They're dramatic and always onstage. Sometimes you might have to remind them they're not king of the jungle.

Virgo the Virgin

(August 21-September 20) Virgos are logical. They make great investigators. They're great at finding out things and putting the facts together. Try to coax them into loosening up once in a while.

Libra the Scales
(September 21-October 20)
Librans are true team players. You can always count on them to play fair. They like everyone to get along. They might need some help from you in making a decision.

Scorpio the Scorpion
(October 21-November 20)
Scorpios are fiery. They know what they want and they know how to get it. I'd think twice before getting in their way. They can also be secretive. Don't assume what you see is what you get.

Sagittarius the Archer
(November 21-December 20)
Sagittarians love to explore, whether that means traveling or just learning about new ideas or taking up a new hobby. They love to learn about people. Sometimes it seems they think they know everything.

Capricorn the Goat
(December 21-January 20)
Capricorns are all about hard work. They're practical and always have their goal in sight. They're like a goat climbing a mountain to get to the fresh air on top. Try to remind them to look around once in a while and have fun on the journey.

Aquarius the Water Bearer
(January 21-February 20)
Aquarians want to change the world—for the better. They're great at getting people together to help others. They're easy to get along with—as long as you agree with them.

Pisces the Fish
(February 21-March 20)
Pisceans are dreamers and can be timid. Sometimes they seem to live in their own world. But if you can catch them in our world, they'll always put their friends first. Watch out they don't get taken advantage of.

Fire: Aries, Leo, and Sagittarius
Earth: Taurus, Virgo, and Capricorn
Air: Gemini, Libra, and Aquarius
Water: Cancer, Scorpio, and Pisces

Wow, Musa sure knows a lot about the stars. I'm from The Fifth Moon of Marigold, and we spend our time with our feet on the ground. In fact, we have our own version of the zodiac. Instead of the month you were born telling what sign you were born under, it tells you what tree watches over you.

Do you want to see what your sign would be if you were a nature fairy like me?

January
The Elm Tree – The Noble Mind
You're smart and honest. You'd much rather be a leader than a follower. You have a good sense of humor, even if you sometimes come across as a know-it-all.

February
Cypress – Faithfulness
You know how to have fun and you're really loyal to your friends. Just watch out for that temper—remember other people have feelings, too.

March
Cedar – Confidence
You're not the least bit shy and you make decisions in a snap. Just don't try so hard to impress others. You're fine the way you are.

April
Hornbeam – Good Taste
You always look great and have the best of everything. You try to see the best in everyone, but sometimes people let you down. Give others a chance.

May
Hazelnut Tree – The Extraordinary
When you believe in something you fight for it. People are drawn to your energy. Sometimes you can be a little moody and too quick to judge.

June
Fig Tree – Deep Feeling
You're strong-willed and independent. Few argue with you and win. Try listening to others sometimes. Talking isn't always about winning.

July
Rowan – Charm
You're always in motion—dancing, running, and jumping. You love to grab the center of attention. Maybe you're an artist. Try to relax once in a while. Don't make things more complicated than they are.

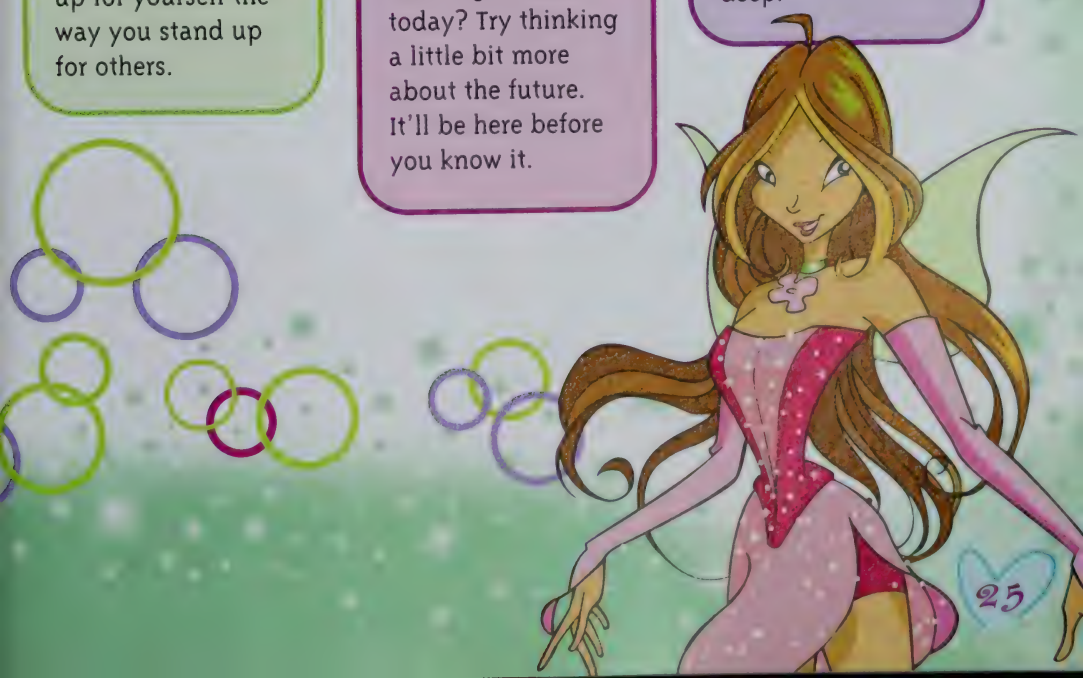
August
Maple – Independence
Your mind is your best asset. School comes easily to you, and once you've got the lesson down you're off daydreaming. Just don't forget to come back into the real world once in a while. We miss you!

September
Weeping Willow – Dreams
You're drawn to beautiful things and love to travel. You're also good at knowing how other people feel. Try to settle down in one place for a while and make it your own.

October
Chestnut Tree – Honesty
You are always fair, and are good at making peace when your friends are fighting. Trouble is, who speaks for you? Learn to stand up for yourself the way you stand up for others.

November
Apple Tree – Love
You're all about your friends. Why worry about tomorrow when you can have a good time today? Try thinking a little bit more about the future. It'll be here before you know it.

December
Fir Tree – Mystery
When you care about someone, you really take care of them. People who don't know you might think you're stuck up, but really still waters just run deep.



Boy, I'm sure learning a lot about my friends. I never would have learned all this if I stayed on Earth!

Timmy is really smart and he invents the most amazing things. His family has more scientists in it than in the entire world of Magix!

Riven is hard to get to know. He's great at sports and he can be cool, but sometimes he has a really crummy 'tude!

Stella here. Now that's the kind of quiz I like to take! Much more fun than algebra. You know what else is more fun? Jewelry! In my realm of Solaria, jewelry has magical meaning. I would never be caught without my scepter ring.

Did you know the month you were born has a special stone attached to it? That's your birthstone. Wearing it brings magical gifts.

IF YOU WERE BORN IN:	YOUR BIRTHSTONE IS:
January	Garnet
February	Amethyst
March	Aquamarine
April	Diamond
May	Emerald
June	Moonstone
July	Ruby
August	Peridot
September	Sapphire
October	Opal
November	Topaz
December	Turquoise

Garnet gives courage and confidence, and protects you from sadness.

Amethyst heals your body and your soul.

Aquamarine brings you peace and helps you communicate with others.

Diamonds bring strength and bravery. They also make you a good friend.

Emeralds bring happiness and success.

Moonstones bring harmony with your friends and family. They also attract new friends.

Ruby makes you a good leader and also brings good luck.

Peridot brings creativity and patience.

Sapphire brings magic, protection, and friendship.

Opal brings beauty and imagination.

Topaz brings good dreams and connects you to the universe.

Turquoise brings good fortune and a happy home.

It's Bloom again. I'm really lucky to have Stella as my best friend. Being at a new school in a new world, I need all the luck I can get!

Everybody needs a little luck sometimes and I'll tell you a secret. All the Winx have special lucky charms for when we need a little extra.

Stella has a special compact with the sun and the moon on it. It was her grandmother's.

Flora has a little pendent in the shape of a pansy. It's been in her family for hundreds of years.

Musa has a little set of pan pipes. Before every quiz she plays "Somewhere over the Rainbow" on them.

Tecna has a lucky computer chip. Tecna says she doesn't believe in luck, so she calls it her computer chip of statistical favorability.

And me? I don't have a lucky charm.
But I'm trying to choose one. So I've been looking at the kind of things that people have carried as lucky charms on Earth.

Good-luck coins – People used to carry coins with good-luck sayings on them. Usually they were brass.

Rabbit feet – People used to believe that the left hind foot of a rabbit was lucky. They would carry it around and rub it for luck.

Four-leaf clovers – Most clovers have only three leaves. So people think finding one with four leaves makes you really lucky.

Horseshoe – Nailing a horseshoe over your door keeps bad luck from entering. Some people think you need to hang it right side up or else the luck will run out. Other people think you should hang it upside down so the luck can pour onto you. Good-luck charms can be confusing!

Elephants – Elephant charms are connected to the Indian god Ganesh, who had the head of an elephant. Carrying a tiny elephant in your pocket brings you good luck—but make sure his trunk is raised up.

Wishbone – On Thanksgiving, after the turkey is eaten, it's time to break the wishbone (it comes from the turkey). Two people each take hold of a side, make a wish, and pull. When the bone breaks, whoever gets the long piece will have their wish come true. If the bone breaks evenly, both people get their wish.

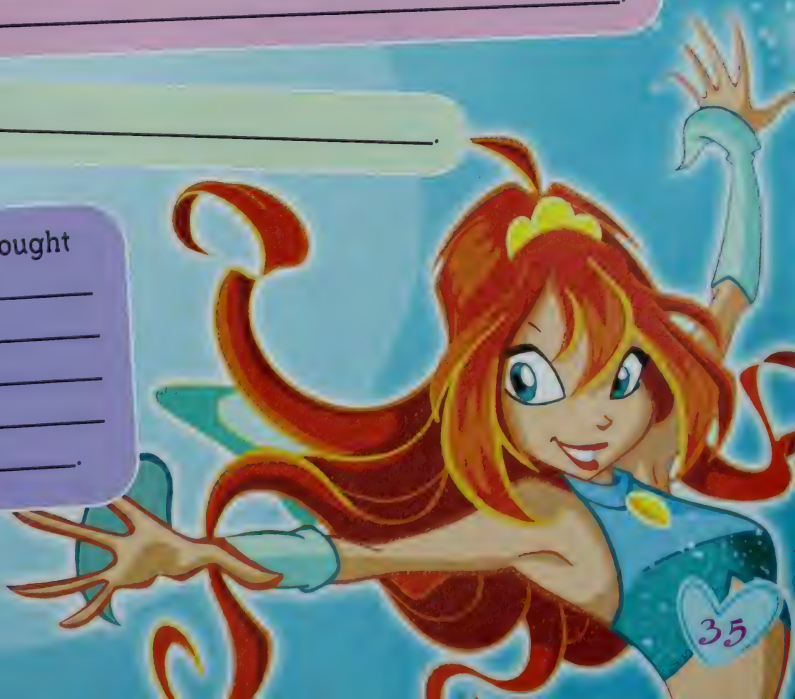
Charm bracelets – Maybe I'll just get a charm bracelet. Then I can have lots of different lucky charms to choose from. People used to give these to girls. Then on birthdays and holidays they would give them lucky charms to hang on them.

My lucky charm is _____.

I got it _____.

I keep it _____.

One time it really brought me good luck was _____
_____
_____
_____
_____.



Hey, everybody, Musa here. Feeling lucky makes me feel good about myself and so does a bit of relaxation. Why don't you try? Put on some comfortable clothes and take off your shoes and socks. Find a quiet place and put on some mellow music.

IMPROVE YOUR BREATHING AND RELAX YOUR BACK.

Start in a standing position, looking straight ahead with your feet about shoulder width apart and your arms down at your sides.

Keeping your back straight, bend at the waist, and gently slide your right arm toward the bottom of your body. As you do so, raise your left arm up so it comes to a bend position sitting at your waist.

Go back to the starting position and repeat the same move to your left.

Alternate each side four times.

FEEL LIGHT

Start in a standing position, looking straight ahead with your legs and feet together and your arms down at your sides.

Stand still, close your eyes, take a deep breath, and try to relax.

Slowly turn the palms of your hands to the outside so that your elbows are directed to the back of your open shoulders.

Relax and pull your elbows together without changing your position—controlling the balance of your body.

Breathe slowly and imagine your body is leaning toward the top.

Relax and then repeat the exercise from the beginning.

RELAX YOUR ABDOMEN

Sit down on the floor with your legs straight out in front of you.

Bend your right leg so that your toe touches your left knee. The knee should remain in contact with the floor.

Close your eyes, exhale, and stretch with your arms until you touch your left foot.

Maintain this position, breathing slowly.

Let go of your foot and slowly return to the start position—keeping your back straight.

Repeat this stretch to your left.

My favorite way of exercising is _____.

After I exercise I feel _____.

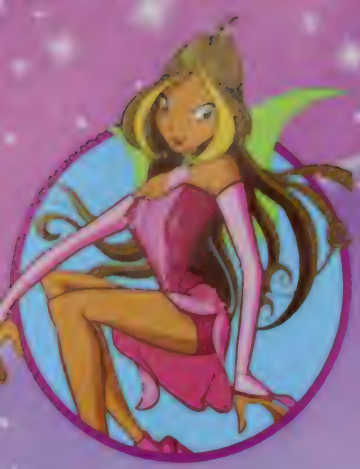
I exercise about _____ times a week.

I like to exercise with _____.

I feel like I'm getting better at _____.

My favorite sports are _____
_____.

My favorite thing to do in gym class is _____.



It's Flora again.

Musa sure does like to work out. She's really tired when she gets home. So I make some tea and we all hang out together.

Drinking tea is only half the fun. My grandmother taught me how to read tea leaves. First you have to make your tea without the tea bag. That way all the leaves can float around the cup. When you pour the tea into cups, make sure they're white or pastel cups, or you won't be able to see the leaves at the bottom.

When everyone's finished drinking their tea there'll be clumps of wet tea leaves at the bottom. That's where the fun begins. Look at the bottom of your cup, turn it around, and look at it from every different view. After a while you'll start to see shapes in the leaves. Each shape has a different meaning. Here are a few of the symbols and what they mean:

A triangle means good luck.

A square means be careful!

A circle means success is on the way.

If you see a letter, it's the symbol for someone's name. Think of everyone your friend knows who has a name that begins with that letter. For instance, if I saw an "S" I'd think of Stella.

If you see a number, it means that number of days or months or years.

A bear means bad luck.

A raised finger means watch out!

A boat means you're going to get a visit from a friend.

A kite means your wish will come true.
A net means a trap.
A mask means a secret you'd better keep.
A snake means an enemy is nearby—like maybe the Witches!
A garden means a party.
A wolf means jealousy.
A vase means you have a secret admirer.

I am Tecna. I find Flora's tea-leaf messages quite intriguing. In my realm we use more technological methods of sending messages, such as cell phones, e-mail, and instant messaging.

Sometimes, though, you need something a little more private. Something only you and your friend can read. So I invented magical inks for secret messages.

Tecna's Experimental Magical Inks

Ink Potion #1

Squeeze a lemon and pour the juice into a glass. Wet a small paintbrush in the juice. Write your message on a plain piece of paper. Give the message to your friend.

Ink Potion #2

Add two teaspoons of salt to a glass of water. Wet your paintbrush and write your message to your friend.

Ink Potion #3

Take a red onion and cut it into fine, small pieces. When the onion is chopped, put it into a cup, and pour a bit of vinegar on it. Get out your paintbrush and start writing.

When your friend gets the message, it will look like a blank piece of paper. However, if she holds it up to a candle, or passes an iron over it, the message will magically appear.

When I need to send a message to my friend in class, I _____
_____.

If I need to leave a secret message for my friend, I _____
_____.

One time I got in trouble for passing a note was _____
_____.

One time I really wished I could send my friend a secret message was _____
_____.

One time somebody sent a secret message to me was_____
_____.

One time I sent a message and the WRONG person saw it was _____
_____.

One message someone sent me that I WISH had been secret was _____
_____.

It's Flora again. I love getting Tecna's secret messages. I remember the most surprising secret message I ever got from Tecna. I asked her what her favorite season was. Tecna said she came from Techno Dust Fairyland. That's a wired realm where there are no seasons.

I couldn't imagine a place like that. In All Green Fairyland we love all the seasons. Each one brings new flowers and plants and fruits. I even love the different weather.

My favorite season is _____.

My least favorite season is _____.

The best thing about my favorite season is _____ _____.

The worst thing about my least favorite season is_____ _____.

___C. Fresh as April showers that bring May flowers

___D. A little spooky, like Halloween

5. Planning to do any work today?

___A. I have to shovel my way to the street, thanks.

___B. Work? What's that? Let's go to the beach!

___C. I have homework, but I can't concentrate—it's so nice outside!

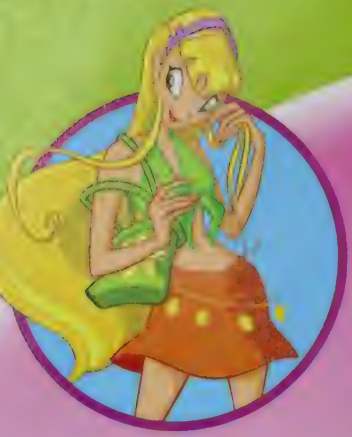
___D. Do I ever—my new teacher is really tough.

If you chose mostly A's, you're winter. Sure you can be chilly, but you have a warm heart. C'mere, let's snuggle up.

If you chose mostly B's, you're summer. You've got sizzle. Let's find a beach blanket.

If you chose mostly C's, you're spring. You're like a breath of fresh air. Here, I've picked you some flowers.

If you chose mostly D's, you're fall. You like that little nip in the air. Finish up that homework, and let's bob for some apples.



Hi again, this is Stella!

It didn't take me long to figure that quiz out. My favorite season is summer! Lying on the beach, surfing, not going to school—all my favorite things! But even in summer, fashion is important.

One thing that isn't really fashionable is a tan. It looks great, but the sun can really be bad for your skin—especially fairy skin. So when I go to the beach I always wear sunblock. But that doesn't mean I don't look great. I've figured out a secret way to give myself a glorious tan without even stepping outside.

STELLA'S TREMENDOUS TEA TAN

Make one big pot of tea—use about two cups of boiling water. Put in four teabags. Use regular, not herbal tea. Let them steep until the tea is dark, dark brown. Let it cool—burning is bad for your skin, too!

When the tea is ready, brush or sponge the solution on your hand to find the right color and to make sure you're not allergic to the tea solution. Once you've got the color down, cover your entire body. If you want a darker shade, just put on a second coat once the first one's dry. Your tan will last a few days and then wash off.

Your eyes also need protection from the sun. Luckily sunglasses look really cool—that is, if you have the right ones. You can't just wear any sunglasses! You should try to fit your sunglass frames to the shape of your face. Here's a handy guide for getting the right frames.

STELLA'S FABULOUS FRAME-UP

If you have a round face, try rectangle frames to make your face look longer.

If you have an oval face, you're lucky. Anything looks good on you. But you look best in frames that are at least as wide as the widest part of your face.

If you have a long face, you can make it look shorter by wearing glasses with decorations at the temples.

If your face is a right-side-up triangle, try cat's-eye sunglasses.

If your face is an upside-down triangle, go for rimless frames.

If you have a square face, get narrow, oval-shaped frames.

Hey, it's Musa. Stella and I both love the sun. In the summer I love visiting her in Solaria and sitting out by the castle pool. That's when I make my famous smoothies. Each one of my friends has her personal favorite.

STELLA'S HONEY ORANGE SMASH

In a blender, mix up:

1/2 cup milk
1 ripe banana
2 tablespoons honey
1/2 cup orange juice
1/2 cup crushed ice

Blend until it's smooth. Serve with a yellow beach umbrella.

TECNA'S TOFU SHAKE

In a blender, combine 1/2 cup soft dates and 1 cup milk. Blend at a low speed until the dates are completely mashed up.

Then add:

5 ice cubes
1/2 cup silken tofu
1/2 teaspoon vanilla extract
1/4 teaspoon orange-flower water

Blend at high speed until it's smooth. You'll see some bits of dates floating around, but that's okay. Pour into iced glasses. Serve with antenna.

FLORA'S MAGNIFICENT MELONS

In a blender, mix:

1/2 cup watermelon
1/2 cup honeydew melon
1/2 cup cantaloupe
1/2 cup plain yogurt
1/2 cup skim milk
1 to 1 1/2 teaspoons of sugar

Puree until smooth. Serve with sunflower.

BLOOM'S MANGO MADNESS

In a blender, mix:

1/2 ripe mango
2 tablespoons sugar
3/4 cup plain yogurt
1 to 1 1/2 cups cold water

Puree until smooth. Serve with big striped straw.

Greetings. This is Tecna. I do enjoy spending time with my friends by the pool. However, heat is not good for my circuitry. When I begin to short circuit we go inside the castle and watch movies.

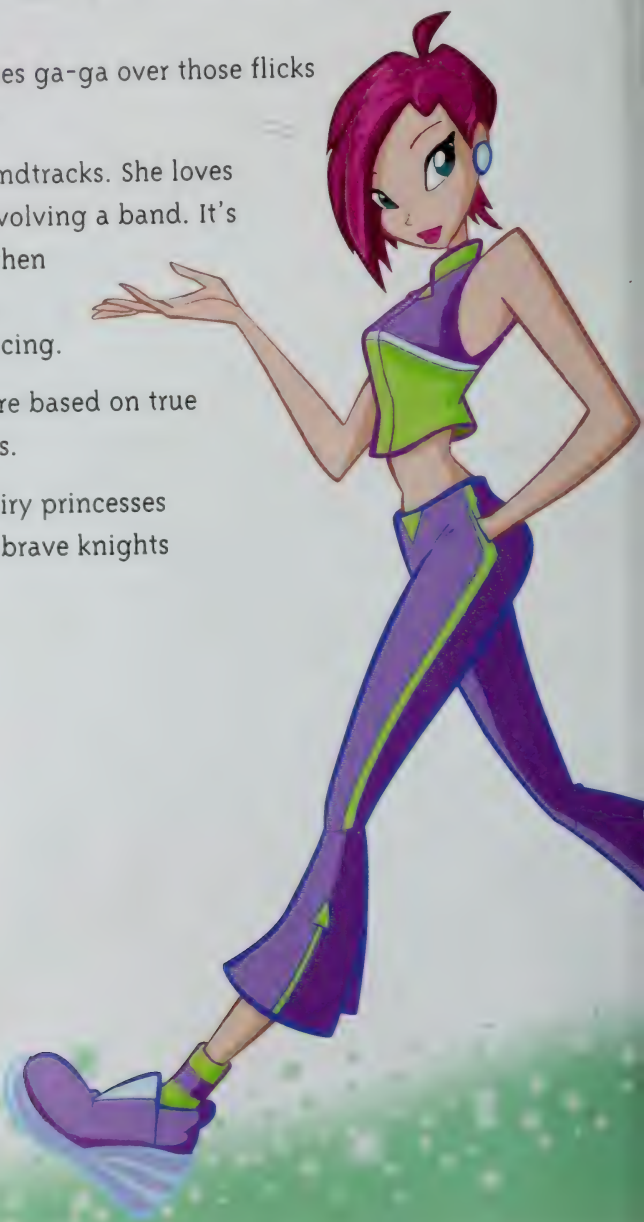
My friends and I all have favorite movie stars and movies. My favorites are all futuristic—full of robots and aliens—and anything sci-fi.

Stella, of course, always goes ga-ga over those flicks full of drama and romance.

Musa's more about the soundtracks. She loves musicals and any movie involving a band. It's hard to get her to sit still when there's a good song. She's always up in the aisles dancing.

Flora prefers movies that are based on true stories and historical pieces.

And **Bloom** likes tales of fairy princesses trapped in castles and the brave knights coming to their rescue.



My favorite movie is _____.

My favorite kind of movie is _____.

The kind of movie I like the least is _____
_____.

My favorite movie actor (male) is _____.

My favorite movie actor (female) is _____.

My favorite scene in a movie ever is _____
_____.

My favorite song from a movie is _____.

The last movie I saw was _____.

The first movie I ever saw was _____.

The movie I really want to see now is _____.

It's Bloom again. Tecna's got me there. I do like castles and princesses and especially dragons. On Earth there's a dragon for every one of the four elements: earth, air, fire, and water.

The Earth Dragon stands for potential power in you. Some people say we all have a dragon like that inside. It protects us from getting hurt, but sometimes it makes us scared to see what's really inside of ourselves.

The Air Dragon stands for inspiration. There are lots of old stories of people seeing dragons flying through the air.

The Fire Dragon stands for mastery and energy. If you need courage, you can get it from the Fire Dragon. Fairy tales are full of fire-breathing dragons, but not all of these dragons were wicked. Like any fire, you just have to be careful with it.

The Water Dragon stands for memories and dreams. The Water Dragon can overwhelm us with her emotion, but if you treat her as a friend, she can bring you compassion and depth of feeling.

Bloom's Dragon Detector

What dragon are you?

1. Where do you live?

___A. Deep underground—stay away from my stuff!

___B. High on a cliff, when I touch down

___C. In my cave—if you come in without knocking, watch out!

___D. Down in the depths, but once in a while I come up for air

2. If friends come to see you, what should they bring?

___A. A flashlight so they can find me

___B. A parachute for the trip home

___C. Marshmallows and a stick

___D. Flippers and an oxygen tank if you're planning to stay long

3. An enemy approaches. What do you do?

___A. Hide my head and hope they don't see me—I don't want to have to eat them!

___B. Dive-bomb them!

___C. I'm in the mood for fried food tonight!

___D. Shark attack!

4. What's your favorite food?

___A. Grubs, worms, and miners

___B. Mosquitoes, birds, and hang gliders

___C. Anything barbecued

___D. Fish, eels, and scuba divers

5. What kind of friend are you?

___A. The kind who sees more in you than you do

___B. The kind who inspires you to have brilliant ideas

___C. The kind who lights a fire under you and makes you great

___D. The kind who sees your hidden depths

If you chose mostly A's, you're an Earth Dragon. Don't coil so tightly around that treasure. You might need it.

If you chose mostly B's, you're an Air Dragon. You've got some brilliant ideas. Come down from the clouds once in a while and share them.

If you chose mostly C's, you're a Fire Dragon. Nobody messes with you. Maybe you can lower your flame just a little so you don't singe everyone.

If you chose mostly D's, you're a Water Dragon. You're absolutely dreamy but staying in the water too long can make you soggy. Dry off and have some fun.

Flora here. Bloom has asked me to prepare some sachets—little bags filled with potpourri—for our room. So I grabbed a bunch of colored fabric—some with polka dots, some with flowers, and a few with stripes—and cut them into rectangles. Then I sewed them together, filled them with dried lavender, and tied them with colorful ribbons.

Potpourri is a sweet combination of dried flowers, herbs, essences, and spices. You can choose all kinds of combinations. Let your imagination run wild and create your own delicious mixes!

Rose soap is for delicate people—when rubbed slowly on the skin it has an amazing revitalizing effect.

Verbena soap is for people full of life—it has a calming and refreshing effect.

Sage soap is for sporty people—it disinfects and refreshes the skin.

Lavender soap is for people who love quiet—it has a calming and resting effect.

Some people are allergic to flowers. But you can still put a little spring in your room with paper flowers.

You will need:

Paper napkins in various colors

Scissors

Wire (preferably green)

Open the napkins and cut all four sides, using your imagination to shape them into petals. Overlap napkins in contrasting colors or in a rainbow or gradation. Gather them up in the middle and wrap the wire around the base so that they remain tight and together. Delicately arrange the petals by pulling open the napkins. Then use the colorful bunches to decorate your walls, your desk, your bed, or simply put them in a vase.

All right, let's just settle this once and for all. Take this simple quiz and you can find out whether you belong at Cloud Tower School for Witches or Alfea School for Fairies. Don't worry, we'll still be your friends if you're a witch, as long as you want to be ours.

1. Do you prefer day or night?

___A. Day—it's when I see my friends

___B. Night—it's when I plot to take over the world

2. What kind of clothes do you wear?

___A. Trendy things that make me look cute

___B. Black all the way—what are you looking at?

3. What's your favorite subject in school?

___A. Flying—I love to use my wings!

___B. Potions and Spells—I love making people do my bidding!

4. You just got detention. What do you do?

___A. Cancel my fun plans to go out with my friends after school—this is so lame

___B. Plot to turn my teacher into a toad in revenge

5. When I grow up I want to:

___A. Help others

___B. Strike fear into the hearts of others

6. Which after-school activity would you do?

___A. Cheerleader

___B. Future Dominators of the World

___A. Plant myself where he can see me and hope he notices me

___B. Hex him until he asks me out

8. Your friend just got the lead in the school play. The part you wanted. What do you do?

___A. Come to see her opening night, even though you don't really want to

___B. Offer to be the understudy, then slip her some laryngitis potion—what a shame

9. You and your friend both like the same boy. What do you do?

___A. Let the boy decide

___B. Tell the boy about your friend's contagious rash—if he knows what's good for him, he'll stay away

10. You're running for class president. What's your campaign slogan?

___A. A Voice for Everyone

___B. Hexes for Everyone Who Doesn't Vote for Me

11. Your friend wears a truly awful outfit to school. She asks you if you like it. What do you say?

___A. "I like it if you like it."

___B. "My cat could cough up a better outfit!"

12. There's a new girl in school.

___A. I think I'll say hello—she must need friends.

___B. I think I'll say hello—she might make a good slave.

If you chose mostly A's, you're a fairy. Welcome to the Alfea School for Fairies. Maybe you could be a Winx. We're always on the lookout for cool friends.

If you chose mostly B's, you're a witch. Welcome to the Cloud Tower School for Witches. Nobody messes with you. Who needs friends? You can help the witches take over the world.

If you chose an equal number of A's and B's, you're a fairy-witch. You can take double classes and commute back and forth.

Those witches never give up. But neither do we Winx. When one of us has a personal goal, we all try to help her out.

Like the time Stella just had to do well on her Illusions and Charms exam. We quizzed her at every meal. We made her a study schedule. We even turned off her cell phone so she couldn't get distracted. Sure enough, she passed the test!

Tecna says that the key to achieving a personal goal is knowing exactly how you're going to do it. Some people make resolutions on New Year's Eve, but Tecna says you can do it any day.

Stella admires her mother, the Queen of Solaria. Stella learned how to accessorize, put her hair in a twist, and match her lip gloss to her nail polish from her mother.

Musa admires Ludwig van Boothaven, a famous composer from Melody Fairyland. He composed the Number Five and a Half symphony.

Flora admires her grandmother in All Green Fairyland. She developed 12 new species of flowers that were used in medicines.

Tecna admires Albert Einstein. She has $E=mc^2$ earrings.

I'm not sure who my role model is. Maybe I'm not sure who I want to be like yet. I'm still finding out who I am!

We can listen to Musa's favorite tunes, send messages in Flora's flower language, get Stella to give us one of her Super Stella makeovers, and watch one of Tecna's space-age android movies on DVD.
